Week 1

AI Foundations

Understand AI and make it your daily assistant.

01

Session 1 — Where AI Fits in Healthcare

Sat 5 Dec, 6:00–9:00 PM

- AI, machine learning, deep learning and generative AI, explained simply, with live healthcare examples
- Branches of AI in healthcare with real examples
- What AI can and cannot do: AI predicts, you decide.

02

Session 2 — Your AI Assistant for Daily Work

Sun 6 Dec, 6:00–9:00 PM

- Set up ChatGPT, Claude and Gemini for your work
- Prompts for clinical admin, emails and patient education
- Patient-data safety: what never to share with AI.

Outcome / Project

Your own AI assistant for daily work.

Week 2

Dreams Over Degrees

Research, Evidence and Data

Find, read and use evidence faster.

Session 3 — Doing Healthcare Research with AI

Sat 12 Dec

- Find papers with AI research tools
- Summarise and compare studies
- Check citations and avoid AI mistakes.

Sun 13 Dec

- Turn evidence into practice decisions
- Read healthcare data with confidence
- Turn a raw spreadsheet into a dashboard.

Project

A literature map for your own question.

Week 3

Content Creation and Automation

Grow your presence without spending your evenings on it.

Sat 19 Dec

Session 5 — Content Creation for Healthcare Professionals

- AI image and video generation
- Patient education posts and reels
- Content that sounds like you.

Sun 20 Dec

Session 6 — Automation in Content Creation

- AI avatars
- Scheduling and automated posting, including LinkedIn
- Professional advertising rules for healthcare.

Project

AI images and video, and posting on autopilot.

Dreams Over Degrees

Week 4

Your Practice Online

Be found, and stay on the right side of the rules.

Sat 26 Dec

Session 7 — Build Your Clinic or Professional Website

- Build a website with AI, no code
- What a clinic or profile website needs
- Publish it live.

Sun 27 Dec

Session 8 — Legal Basics of AI for Healthcare Professionals

- Patient data, consent and privacy
- Responsibility when you use AI
- Safe and lawful use in practice.

Project

A live website for your clinic or profile.

Week 5

Dreams Over Degrees

Automating Healthcare Workflows

Let automation handle the repetitive work.

Session 9 — Build Your Own Healthcare Workflow

Sat 2 Jan

- What automation can do for a clinic or team
- Build a workflow step by step
- Connect the apps you already use.

Session 10 — Build a Personal AI Agent

Sun 3 Jan

- Chatbot versus agent
- Build an agent for a real task
- Keep a human in the loop.

Project

A working automation and a personal AI agent.

Week 6

AI for Patient Communication

Better reminders, fewer missed appointments.

Session 11 — Voice Calling Agents for Healthcare

Sat 9 Jan

- How AI voice agents work
- Build an appointment reminder agent
- Consent and safety.

Session 12 — WhatsApp for Clinics

Sun 10 Jan

- Set up WhatsApp Business the right way
- Quick replies, labels and away messages
- What to automate and what not to.

Project

WhatsApp Business setup and an AI voice agent.

Dreams Over Degrees

Week 7

Career

Turn your new skills into opportunities.

Session 13 – Your Professional Brand on LinkedIn

Sat 16 Jan

- Optimise your profile
- A simple posting plan
- Connect with the right people.
